The importance of the 3-year cycle is crucial in Montessori. It is a clearly-defined and discrete educational unit with a beginning, a middle, and an end for each child, with the third year in each sequence a capstone year that becomes a culminating experience academically, emotionally, socially, and developmentally. If not followed, the child's work in that three-year sequence is simply incomplete. I/we understand that this minimum time period is necessary for the child to benefit properly from the Montessori experience and for the school to maintain a proper balance of age levels within the class. I/we also understand that class placement is the sole responsibility of the school.

I/we understand that a \$300.00 longevity incentive (\$200.00 for siblings) is payable immediately upon acceptance of my child into the program, and that this longevity incentive is non-refundable except upon completion of the multi-year sequence.

South Suburban Montessori School prohibits discrimination in employment, admission policies, educational programs, financial aid awards, and activities on the basis of race, national origin, creed, religion, sex, age, disability, veteran status, sexual orientation, gender identity, or associated preference.
